### Title

Request for information for the access door of  
grease interceptor

### SCHEDULE IMPACT

Probable

### COST IMPACT

Probable

## RETURN BY

Apr 24, 2025

### Information Requested

As per the site conditions, it is not feasible to flush the cover of the grease interceptor with the finished floor level due to the floored slope. To address this issue, it has been proposed to provide a separate cover plate on top of the grease interceptor.

However, in the absence of any specific detail or specification in the project documentation, we kindly request your guidance in providing the necessary specification or detail for the required checkered cover plate, including material, thickness, load capacity, and installation method (if applicable).
