### Information Requested

Follow up to RFI 22-001-008 (attached). The recessed box (ELAVT0008ARI) and the faucet (591TF0298TR) that goes with the box cannot be used in the woman's washroom on 2nd and 3rd floor so we need a substitute We need the same faucet that uses a surface mounted sensor under the countertop. and propose using the 591LF series as opposed to the 591TF, it's the same style faucet but different sensor set up. We will install the mixing valve in the ceiling space as directed.

Please advise and confirm model #.
