- .8 Section 23 25 00 – HVAC Water Treatment
- .9 Section 23 30 00 – HVAC Air Distribution
- .10 Section 23 50 00 – Central Heating Equipment
- .11 Section 23 60 00 – Central Cooling Equipment
- .12 Section 23 70 00 – Central HVAC Equipment
- .13 Section 23 80 00 – Decentralized HVAC Equipment
- .14 Division 25 – Integrated Automation
- .15 Division 26 – Electrical

1.3 GENERAL NOTES

- .1 In this specification the "Contractor" refers to the General Contractor responsible for the total project. The "Trade" refers to the particular HVAC Trades.
- .2 The term "HVAC Trades" includes all Trades that perform work specified within this Division.

1.4 SCOPE OF WORK

- .1 It is the intent of these specifications to furnish and install a complete heating, ventilating, air conditioning system as more thoroughly defined in each section of this specification. All materials and equipment as hereinafter specified and/or shown on the drawings will be furnished and installed in such a manner as to leave each of the systems of the Mechanical Trades complete and in satisfactory operating condition.
- .2 These specifications are to be considered an integral part of the plans which accompany them. Neither the plans nor the specifications shall be used alone. Any item or subject omitted from one but which is mentioned or reasonably implied in the other shall not relieve this Trade of responsibility.
