Request to Use Alternate Inline Trap Seal Primer -
Zurn Model

No

No

RETURN BY

Jun 6, 2025

Information Requested

We are requesting approval to use an alternate inline type Trap Seal Primer from Zurn, specifically the Zurn Z1022, in place of the specified trap primer currently outlined in the plumbing specifications for this project.

Reason for Request:

1. The Zurn Z1022 inline trap primer offers consistent performance and is compliant with ASSE 1018 standards.
2. It features a compact design suitable for tight installation spaces and integrates easily into the water supply line.
3. Zurn products are readily available and backed by a strong manufacturer warranty.
4. Our field team has experience with Zurn inline primers, and it would enhance installation efficiency.
