Information Requested

for all of the other washrooms in the building we provided a 'Multi-Feed System' for the soap dispensers. It's a large soap reservoir that feeds the soap dispensers from one spot.

However, I've realized that for this washroom it was never requested during quoting or ordering phases. Could you check with the GC, to see if they want us to add it on?

It will be a lot easier to deal with this now, before the client requests it after. You can see more details on it, in the attached. It won't hold anything up production/delivery wise, but we would have to provide a price for it.
